

## Company Roots

Asia Connecting Center (ACC) was founded in 2008 with the headquarter based in Singapore. Initially the company was focusing on technical management support during rig construction projects in Asia. However due to expansion company was restructured and today we offer various quality services for our clients globally.

The founder of the company has a substantial practical experience in the oil and gas field where he had worked since 1999 through out various industry recognized companies such as Baker Hughes, Schlumberger, Ensco and others.

Our prime focus remain to be extensive Project Management service provided to various clients on the newly build modern offshore drilling rigs in Asian shipyards.

In addition our company supply complex client services related to construction management of the rigs as well as their operational support in various areas and locations.

Integrity and diligence is our way of working. The objective of ACC is to maintain lasting relationship with all esteemed clients by providing continued quality service.

## Scope of activities

- Complex project management for turn key construction of the offshore Drilling Rigs and Drilling Vessels: including but not limited to review of the commercial proposals, technical contracts, inspections, commissioning, delivery ,etc.
- Skilled technical personnel selection for yard construction projects.
- Qualified rig personnel selection and supply (Offshore Installation Managers, Tool Pushers, Rig Engineers, Maintenance Supervisors, Mechanics, Electricians, Electronic Technicians, Drillers, Catering Crews etc).
- Parts selection and supply (drilling equipment, downhole tools, handling tools, PAGA, PABX, Vessel Management System, Fire&Gas Systems).
- Rig inspections covering drilling, mechanical, electrical disciplines.
- Various client orientated services that are made in cooperation with other oil&gas specialized companies, i.e: lifting gear inspections, drop object inspections, cyberbase training for drilling crew, safety marks installation, flag registration, tax payment, tug boats arrangement, service engineering arrangement etc).
- Supply of Drill Pipes, Drill Collars, Heavy Wate DP, and Drilling Casings.
- Geological studies, reservoir simulation and engineering, well design, formation evaluation of well data (software Petrel, Interactive Petrophysics, Eclipse, ArcGIS, PetroMode, Omni+Vista).

## Present activity

We currently provide consultancy to following clients:

- Egyptian National Gas Holding (EGAS) in all commercial and operational activities of the two newly constructed jack up drilling rigs located on Medditteranean Sea,
- Egyptian Offshore Drilling Company - technical support,
- Toyota Tsusho Corporation - advisory on future investments in oil and gas fields.

## Refercense Projects:

- Ensco 106 Drilling Rig (B263)
- WilPower Drilling Rig (P2007)
- WilSuperior Drilling Rig (P2009)
- WilForce Drilling Rig (P2012)
- WilSeeker Drilling Rig (P2016)
- WilConfidence Drilling Rig (P2019)
- WilCraft Drilling Rig (B269)
- WilBoss Drilling Rig (B285)
- WilStrike Drilling Rig (B293)
- El Qaher 1 (P2023)
- El Qaher 2 (P2029)

## Company references

### Efir Energy

Mr. Piotr Gliniak – *Chariman*, Tel: +48 691 441 052  
Customized Well Design – Reservoir Simulation – Seismic and Geological Studies

### Egyptian Natural Gas Holding (EGAS)

Mr. Hesham Bahaa – *Assistant Vice Chairman For Drilling, Head of Technical Comitee*, Tel: +202 240 558 45  
Consultation for Drilling Activities for gas exploration and development wells in the Egyptian Offshore Waters (Red Sea, Meditteranean Sea)

### MIDCO Oilfield Services

Mr. Essam Afattach – *Chairman*, Tel: +202 270 41628  
Equipment Supply – Rig Inspections (current bid for Gas De France Semisubmersible Rig Inspection)

### Egyptian Offshore Drilling Company (EODC)

Mr. Osama El Bakly – *Chairman*, Tel: +202 2702 2290  
Asset Management of the newly build modern Jack Up drilling rigs offshore Mediterranean Sea (including but not limited to purchase, operation, technical support etc)

### Toyota Tsusho Corporation (TTC)

Mr. Yasufumi Sudo – *General Manager for Egypt Market*, Tel: 20-2-22674813  
Complete Project Management of the construction two ultra modern Jack Up drilling rigs El Qaher 1/ El Qaher 2.

### Reid Engineering

Mr. Jarle Berge – *Managing Director*, Tel: +65 6472 11 50  
Supplying Technically Skilled Personnel for various offshore projects worldwide

### ABS Consulting

Mr. Suresh Bheema – *General Manager – South Pacific*  
Tel: +65 6 270 8663  
Offshore Project Consulting Management
